

Additional Course Options for RJUHSD Students (Adelante, Antelope, Granite Bay, Independence, Oakmont, Roseville, Woodcreek)

AP Computer Science A

Enter the exciting and lucrative world of programming and game development. Make a video game, a virtual pet, and a sound editor. Explore careers in programming, including the booming world of wireless applications (iOS and Android apps). In preparation for the College Board's AP Computer Science exam, the course emphasizes object-oriented programming methodology with a concentration on problem solving and algorithm development. The course is meant to be the equivalent of a first-semester college-level course in computer science. Self-discipline is critical to success due to the significant online material and the rigorous academic level.

Architecture, Construction, & Engineering

Gain the educational background and practical experience necessary for successful employment in a variety of occupations in the construction field. Learn skills that are in-demand and essential for employment in drafting, carpentry, construction supply, sheet metal, heating and air conditioning, electrical, plumbing, and cabinet making. Course delivery includes classroom and on the job training.
